

ARROW EXPORTS

www.arrowexports.in

Welcome to the **World of Arrow**

Established in 2004, Arrow Exports began its journey as a dedicated garment manufacturing unit. Over the years, we have evolved into a fully integrated apparel export house, bringing knitting and printing under one roof to ensure superior quality and streamlined production.

Today, Arrow stands as one of the leading garment exporters in the region, trusted for our transparent business practices, long-standing client partnerships, and unwavering commitment to excellence.

We proudly export to top-tier buyers across the United States, Middle East, and Europe, catering to a wide range of global fashion markets.

Our operations are built on three core pillars

- **100% Supply Chain Traceability**
Ensuring full visibility from yarn to finished garment.
- **Sustainable Manufacturing**
Prioritizing eco-friendly processes and responsible sourcing.
- **Customer-Centric Approach**
Delivering consistent quality, on-time delivery, and personalized service.

At Arrow, we don't just manufacture garments - we deliver value, reliability, and innovation with every stitch.

Our Journey

The Beginning

Established in 2004 by Mr. Sureshkumar and Mr. Sridhar, Arrow Exports set out to deliver world-class apparel globally.

2004

Astra Screens

2008

To enhance vertical integration, Astra Screens was established in 2008 as a dedicated screen-printing unit, equipped with state-of-the-art machinery.

Shanthi Knitting

In 2014, Shanthi Knitting was launched as a joint venture to meet our internal knitting requirements.

2014

Garment Manufacturing Expansion

2016

By 2016, our garment manufacturing capacity expanded to 200,000 pieces per month, strengthening our production capabilities.

Printing Expansion

In 2022, Astra Screens underwent further expansion with the addition of five fully automated screen-printing machines, boosting our print production efficiency and scale.

2022

Our Products

Men's Wear

Polos, crew neck t-shirts, hoodies, jackets, and track pants - designed for style, durability, and comfort.

Women's Wear

Fashion-forward and functional garments tailored to contemporary lifestyles.

Infant & Kids Wear

Soft, hypoallergenic, and safety-tested clothing that ensures gentle care for young skin.

Sportswear

Engineered for movement, breathability, and endurance-ideal for activewear brands.

Inner Wear

Comfortable, skin-friendly, and supportive essentials for everyday wear.

Night Wear

Cozy, breathable sleepwear made for all-night comfort.

Our Infrastructure

At Arrow, our infrastructure is designed to deliver efficiency, consistency, and world-class quality at scale. We combine advanced technology with skilled craftsmanship to meet the evolving demands of global apparel markets.

Garment Manufacturing

Equipped with state-of-the-art sewing machines, our facility has a production capacity of **2.5 million** garments per annum, ensuring timely and scalable output.

Screen Printing

Our subsidiary, Astra Screens, houses fully automated screen-printing machines with a capacity of **40,000 pieces** per day, supporting up to 20 colors per design for vibrant, high-definition prints.

Knitting Division

Powered by first-in-class Unitex and Mayer & Cie circular knitting machines, our knitting unit produces up to **8 tons** of premium-quality fabric per day, catering to both internal needs and custom specifications.

We take pride in the fact that 50% of our energy requirements are currently met through **solar power**. We are firmly committed to sustainability and are on track to achieve **carbon neutrality** by 2030.

Social Responsibility

At Arrow, we believe in giving back to our people and the planet.

- **Education for All** – Over 100 employees have benefited from our Arrow Education Support program.
- **Greener Tomorrow** – 4,500+ trees planted in our locality to promote sustainability.
- **Health First** – Regular health check-ups and vaccination drives ensure staff well-being.
- **Community Care** – We support local schools and old age homes, uplifting the communities around us.
